

Annual Report of Solid Waste Management Rules, 2016

For the State of Maharashtra
(Year - 2023)

Maharashtra Pollution Control Board
Third, Floor, Kalpataru Point, Near Sion Circle, Sion (East),
Mumbai - 400 022, Maharashtra

MAHARASHTRA POLLUTION CONTROL BOARD

ANNUAL REPORT - 2023

Form- V

PART A

To,
The Chairman,
Central Pollution Control Board,
Parivesh Bhawan, East Arjun Nagar
Delhi- 110 0032.

1.	Name of the State/Union territory	MAHARASHTRA
2.	Name & address of the State Pollution Control	Maharashtra Pollution Control Board, Sion, Mumbai - 400022
3.	Number of local bodies responsible for management of solid waste in the State/Union territory under these rules	1 Corporations 28 2 Councils 241 3 Nagar Panchayat 142 Total ULBs 411 4 Cantonment Boards 07
4.	No. of authorization application Received	91
5.	A Summary Statement on progress made by local body in respect of solid waste management	Attached as Annexure-I
6.	A Summary Statement on progress made by local bodies in respect of waste collection, segregation, transportation and disposal	Attached as Annexure-II
7.	A Summary statement on progress made by local bodies in respect of implementation of Schedule II	Attached as Annexure-III
	Date: Place: Mumbai	 (M. Devender Singh, IAS) Member Secretary Maharashtra Pollution Control Board

Summary statement on progress made by local body In respect of Solid Waste Management

Maharashtra is one of the highest urbanized states with nearly 50% of the population residing in urban areas.

Classification of Cities:

No.	Name	Statistics
1	Municipal Corporations	28 Cities
2	Municipal Councils	241 Cities
3	Nagar Panchayat	142 Cities
4	Total Number of ULBs	411
	Total SW Generated by ULBs	24,149.42 MT/D
5	Total Cantonment Boards	07
6	Total SW Generated by Cantonment Boards	150.01 MT/D
	Gross Solid Waste Generation (ULBs + Cantonment Boards)	24,299.43 MT/D

The solid waste generated by Corporations is 20081.07 MT/Day with share of 82.64% while generation by “A” class council is 968.435 MT/Day with share of 3.99%, “B” class council generates 1385.89 MT/Day with share of 5.70%, “C” class council generates 1132.18 MT/Day with share of 4.66 %, Nagar Panchayats generates 581.82 MT/Day with share of 2.39% and Cantonment Boards contribution is 150.01 MT/day with a share of 0.62%.

Solid Waste Management Status Summary

Total Number of ULBs	Total Waste Generated (MT/D)	Total Waste Collected (MT/D)	Total Waste Scientifically Treated in Facility (MT/D)	Total Waste Disposed in Sanitary/Simple Landfill (MT/D)	Total Waste Unscientific Disposed (MT/D)
411 ULBs+ 7 CB	24299.43	23974.73 (98.66 %)	19877.12 (81.80 %)	3549.59 (14.60 %)	872.71 (3.59 %)

Percentage of solid waste treatment increased from 94.35% to 96.4% as compared to treatment carried out in 2022.

Total 19877.12 MT/Day Solid Waste is treated/processed by ULBs by adopting waste treatment technologies and total 3549.59 MT/Day is disposed of in sanitary landfill. Thus, achieving overall 96.4% average treatment. The remaining solid waste finds its way for unscientific disposal/dumping. Overall average waste segregation is 98.66 % and overall solid waste transportation is 98.23 %.

Summary statement on progress made by local bodies in respect of Waste collection, segregation, transportation and disposal

The state has positively adopted the SWM Rules 2016 in totality and is working towards scientific management of solid waste in ULBs of the state. The state has a robust solid waste management policy in accordance with the Solid Waste Management Rules, 2016 and emphasizes on 100 % segregation, collection, transportation & processing of wet waste through composting, bio-methanization etc. Dry waste recycling, reuse and recovery is carried out through material recovery facilities, landfilling of inert, processing of legacy waste through biomining.

ULBs are practicing segregation of waste at source and adequate provisions are made in Solid Waste Management DPRs for achieving 100% segregation of waste at source. ULBs in the state are segregating waste into three categories wet, dry and domestic hazardous waste.

Processing of Waste:

Vehicles deployed for collection and transportation of waste have two compartments for dry and wet waste. Dry waste collected from the city is further segregated into paper, plastic, glass, metal etc. at transfer stations or the designated material recovery facility (MRF) in the city or at solid waste treatment facility. After secondary segregation, the dry waste is being recycled through local sellers in the city or to recyclers in the region or to the waste processing plants in nearby metro cities through prescribed processes.

For treatment of dry waste, technical options such as preparation of Refused Derived Fuel (RDF), use of plastic in roads, preparation of oil or granules from plastic etc. are also used by some municipal corporations.

Wet waste which is segregated at source is further treated in composting plants and the compost thus obtained is sold as manure. Maharashtra is the only state to have registered its own brand “**Harit Maha City Compost**” for promotion of marketing and sale of city compost which is as per the FCO standards and SWM Rules, 2016.

ULBs have integrated rag pickers into formal system and involved them for recycling and recovery of waste. Rag pickers are provided with identity cards, basic facilities, and personal protective equipment.

Municipal Corporation of Greater Mumbai has mandated all bulk generator of solid waste i. e. having area greater than 5000 sq. Mtr to provide in-situ treatment of solid waste generated in their premises. This practice resulted in reduction of waste generation.

A Statement of Municipal Solid Waste generation and treatment in the State is enclosed with graphical representation.

**A summary statement on progress made by local body
In respect of implementation of Schedule-II**

Maharashtra is one of the urbanized states in the country. The state is having total 418 Nos. of Local Bodies. ULBs have installed 456 composting plants as a waste processing facility. Also 145 vermi-composting facilities, 57 bio-methanization plants, 04 waste to Energy plants and 23 RDF plants are installed. The 382 landfill sites are identified. The Bio-medical waste and industrial hazardous waste generated in local bodies is not mixed with MSW and such waste is disposed of separately in accordance with provisions made under BMW Management Rules, 2016 and Hazardous and Other Wastes (Management and Trans Boundary Movement) Rules, 2016. For the disposal of Hazardous waste, 4 no. of common Hazardous waste treatment & disposal facility have been developed in the State. For the disposal of the Bio-medical waste, 34 Common Bio-medical waste treatment facilities are in operation.

The main constraint for the effective implementation of MSW Rules & setting up of waste processing facility for local bodies is the lack of suitable land. Considering the constraint, the Urban Development Department, Govt. of Maharashtra has passed order regarding formation of District level committee in every District under the Chairmanship of District Collector. The main objective of district level committee is to identify & select waste processing and landfill sites. The Committee comprises 11 members of various departments concerned. While identifying the suitable location for landfill and waste processing site, care is taken by the district level committee that the site should be away from habitation clusters, forest, water bodies, monuments, wetlands and places of cultural, historical and religious importance including CRZ areas.

Initiative taken/proposed by the MPC Board:

- Board has developed web portal for urban local bodies to monitor daily and monthly data for waste generation, segregation, collection, transportation from administrative ward and its proper treatment. All corporations are submitting the details of waste collected, transported and treated in concern wards. Hence it has resulted in self-certification and self-audit by local bodies.
- Board regularly issues notices/DO letters/directions to the Municipal Corporations/Councils for implementation of SWM Rules, 2016.

- Hon'ble Chairman has issued Directions under section 5 of the Environment (Protection) Act, 1986 to all local bodies for implementation of Solid Waste Management Rule, 2016.
- Board has issued environmental compensation notices to 168 and 114 local bodies with respect to solid waste management and legacy waste management respectively.
- Board has initiated the concept of providing financial and technical assistance to Municipal Councils and Nagar Panchayats for setting up Solid Waste Management facility towards abatement and control of pollution.
- Board has prepared Model Tender Document on solid waste management for local bodies and same is hosted on Board's website
- Board has also constituted Technical Advisory Committee for State level for implementation of SWM Rules, 2016 in the State of Maharashtra.
- Board has constituted a committee for scrutiny of authorization applications and the treatment technology prepared by Local Body. The members of this committee consist of representative from All India Institute of Local Self Govt & Ex. Dy. Commissioner of Municipal Corporation of Greater Mumbai.

Gaps and issues in Implementation:

- Capacity building in the solid waste management department to improve efficiency and safety standards.
- Quantification of waste data.
- There is lack of personnel operating at the processing facility.
- The current collection and transportation system is not optimized.
- Lack of management skill with Local Bodies.
- Non availability of suitable land for handing over to local bodies which are not having their own land.
- Local Community resistance.
- Inadequate finance for management of Solid Waste by Local Bodies
- Selection of proper waste processing technology with respect to quantity of waste generation including waste to energy plants.
- Lack of public awareness/participation.
- Unsegregated Waste at Source.

Suggestions:

- ULBs shall appoint Environment officer to deal with SWM, C & D waste and other wastes management.
- Public awareness and involvement of people in the segregation of waste.
- Provision of adequate financial assistance to ULBs for effective implementation of SWM Rules, 2016.
- Suitable technology adaptation to different groups of ULBs.
- Formation of expert groups to redefine site selection criteria considering advance technology and need for decentralizing treatment plants.
- May consider creating authority for selection, provision, and operation the MSW facility by itself or on BOOT basis at each stage.
- Identification of landfill and waste processing sites by State Government and handover to concerned local bodies.
- Research and development on low-cost standard models.

PART B

Towns/cities

Total number of towns/cities : 418

Total number of ULBs : 411 + 07 Cantonment Boards

Number of class I & class II cities/towns :

Sr. No.	ULB	Number
1	Corporations	28
2	A Class	16
3	B Class	74
4	C Class	151
5	Nagar Panchayats	142
6	Cantonment Boards	07
	TOTAL	418

Authorization status (names/number) in this year

Number of applications received	91
Number of authorizations granted	11
Authorizations under scrutiny	8
Authorizations Rejected	8

SOLID WASTE Generation status:

Solid waste generation in the state (TPD)	24299.426*
Collected	23974.7
Treated	19877.1
Scientifically Landfilled	3549.596
Dumped	872.71 (unscientific Dumping)

*In the Mumbai region, Municipal Corporation of Greater Mumbai has mandated all bulk generator of solid waste i. e. having area greater than 5000 sq. Mtr to provide in-situ treatment of solid waste generated in their premises. This practice resulted in reduction of waste generation.

Compliance to Schedule I of SW Rules (Number/Names of Towns/Capacity)

Particulars	Number of ULBs
Good practices in cities/towns include IEC, training, public awareness	307
House-to-house collection	418
Segregation at Source	409
Storage	319
Covered transportation	418

Processing of SW (Number): Solid Waste processing facilities setup for ULBs

Composting	
No. of Cities/ULBs	No. of Plant installed
400	456

Vermicomposting	
No. of Cities/ULBs	No. of Plant installed
112	145

Biogas/Bio-methanization	
No. of Cities/ULBs	No. of Plant installed
45	57

RDF/ Palletization	
No. of Cities/ULBs	No. of Plant installed
15	23

Solid Waste processing facilities set up for Cantonment Boards				
No. of Cantonment Boards	Composting	Vermicomposting	Bio-methanation	RDF
7	6	5	0	0

Processing facility operational:

Sr. No.	Composting	Vermicomposting	Biogas	RDF/ Palletization
	456 + 6 = 462	145 + 5 = 150	57	23
