The consents shall be disposed after obtaining necessary consent fee difference from the industry as per GoM, Revised Consent fee structure dtd. 25.08.2011.

Thereafter, CAC discussed on following points;

1. The present practice of area co-ordination and subject-wise work distribution was discussed in detail and it is found confusing and hence, needs to be revisited.
2. CAC found that many industries are having more than one consent on one plot, which becomes difficult to monitor the compliance and sometimes

several activities skips. Hence, it was decided to amalgamate the consents of industries which are holding more than one consent on same plot.

3. CAC raised the issue as to why the non-compliances is being pointed out only at the time of application for grant of consent and not regularly. Also, If found defaulting, why the action is not been taken. Regional Officers should strictly monitor the compliance of industries regularly.
4. JD(APC) and RO(HQ) shall put up note of actual inspection done against inspection norms (visit notes) for their respective co-ordinating regions for CAC cases.
5. JD(WPC) take the review of compliance of CREP Guidelines for Sugar industries and put up status note.
6. CAC found that many proposals/ applications are pending due to the non-receipt of distance Certificate from Irrigation Department, which delays the disposal of consent. Hence, it was decided to issue letter to Chief Engineer, Irrigation Department to give instructions to all Executive Engineers to issue Certificates within 15 days period.

The meeting ended with vote of thanks to the Chair.
