9	----	Ports excluded from Red Category by CPCB and MOEF and not	NOT APPROVED Ports excluded	----	Committee noted that, Board has received letter from Hon'ble Chairman, MBPT stating that Mumbai Port is an infrastructure facility for handling of Import/Export of dry bulk cargo, Liquid

		listed in Non-Industrial Organizations (Activated/Facilities /Infrastructure/ Services)	from Red category.		<p>cargo, General cargo, Containers etc. The activity of Mumbai port Trust does not involve processing of chemicals or hazardous substances and is not an industry and Port operations are non-Industrial operations. Ports are catalyst to the National/State economy and simplified consent to operate will be a step towards ease of doing Business for all stake holders in the Port sectors. As per CPCB direction dated 30.04.2020 requested review and may be waived off permanently the port operations from non-industrial operation as defined by CPCB and MOEF and shall not consider as Red Category.</p> <p>After reviewing the matter in CAC, It was decided that port operations are not an industrial activity and to consider port activities under Red category as Port generally handles all kind of materials like dust generating material (e.g., Coal cement), Liquid with potential of leakages and accidents (e.g., petroleum, chemicals, gases) and other hazardous and non-hazardous material. Loading, unloading storage of these material cause dust pollution, land pollution, liquid spillage wastes, gaseous emission due to accidental leakage of gas. Port also has large quantity of sewage requiring setting up STP including Ballast water management. It also required substantial power back to ensure continued operation which causes air pollution. Substantial waste oil from the operation and maintenance of heavy machinery leads to hazardous waste generation.</p> <p>In view above and after due deliberations, it was decided not to consider the PP' request for waiving of consent fees, waiving</p>
