40	M/s. Wardha Power Co. Ltd., MIDC Warora, Dist - Chandrapur	31.05.2011	---	---	Issue SCN before refusal of consent.

Thereafter, CAC discussed the following points of General Concern Management:

1. Board has already taken a decision that consents should not be renewed without verifying the environmental statement submitted by the industry as per the Environmental Protection Rules. CAC reiterate the same and it was also decided that the cess details including the outstanding amount should be referred in the consent processing.
2. CAC discussed on the procedure to be followed in case of industries claimed for “**No increase in pollution load**”. It was noted that Board has issued a comprehensive circular vide circular dtd.31.8.2000, outlining the procedure to be adopted for such cases. It was decided that a fresh circular to be issued to all RO's and SRO's for strictly following the procedure mentioned in the said circular.
3. The consent fees are decided on the capital cost and it was decided to call Auditors Certificate on the capital cost without depreciation in case of consent to operate/renewal. It was also decided that CAO will examine the aspect of write-off in the capital cost and consideration in the capital cost for the fee calculation.
4. Board has already taken a policy decision for granting one consent on one premise and accordingly, the amalgamation of consent proposals are being receiving by the Board. The Chairman desired that the review should be taken of all the cases where more than one consent are issued on one premise and still in operation. A report needs to be prepared in next 2 weeks.
5. The environmental compliance of MAHAGENCO at coal based power plant was discussed in detail. Board has already taken up the non-compliances, particularly, the air emissions, fly ash utilization and leakages to the Environment Department and also Energy Department at several occasions. However, there are still regular complaints and non-compliances observed in these power plants. It was therefore decided to move a comprehensive note to Environment Department for taking further necessary action.
6. The CAC discussed on the consent processing format and it was decided that the complete consent processing sheet with RO/SRO remarks should be submitted to CAC

along with the final closing abstract note from the concerned HOD with a clear cut remarks / recommendations. The internal noting such as seeking information from the industry, further actions, SCN/directions issued, etc. shall not come to CAC. This should be followed from the next CAC itself.

7. It was decided to prepare a list of industries covered under CAC i.e. capital investment more than Rs.100 crs. along with its consent validity period so as to develop the financial projection and work load strategies.

The meeting ended with vote of thanks to the Chair.
