After due deliberation. It was decided to issue SCN for refusal for consent to establish for expansion.</p> <p>Committee also noted that SCN was issued on 11.09.2025. Industry has submitted the reply on 16.09.2025 as below</p> <ol style="list-style-type: none"> Existing Consent to Operate not attached with application, hence existing quantity and compliance status could not be verified. – Industry has submitted consent copies for Phase-I (5 MTPA) and Phase-II (5–10 MTPA) valid up to 31.12.2028 and 30.04.2028 respectively. Applied expansion from 6.0 to 14.0 MTPA not covered under EC dated 16.06.2020 (permits only up to 10.0 MTPA). Industry has clarified that Board has already granted consent for sinter plant I =2.8 MTPA and Sinter plant II = 2.5 MTPA. The proposed Sinter Plant–III (4.37 MTPA) is within the approved EC limit of 10 MTPA (Total = 9.67 MTPA.) the mention of 14 MTPA was a typographical error in the online form. CETP proposal inadequate – flowchart, treatment mechanism, and detailed design scheme not submitted, CETP capacity (1000 m³/hr) appears oversized: Now industry has submitted detailed flow chart and treatment mechanism. The proposed capacity of 1000 m³/hr is to accommodate future expansion (Phase-III), process variation, peak flows, and operational flexibility. EC condition dated 16.06.2020 mandates Zero Liquid Discharge (ZLD), whereas the proposed CETP does not demonstrate a clear ZLD mechanism. Industry has stated that existing ETPs recycle maximum treated water (615 m³/hr) and further advanced treatment under CETP is planned to achieve ZLD progressively; 256 m³/hr effluent considered
