During the visit, non-compliances were observed. Based on the visit report, Industry has submitted reply for the following:</p> <ol style="list-style-type: none"> 1. At the time of visit, the factory was not in operation. Industry has submitted that they have not started the sugarcane crushing 2. OCEMS provided earlier at ETP has been dismantled. Industry has replied that as sugar plant production was not ongoing due to maintenance activity and ETP maintenance/ modification work was ongoing, to prevent any damage to equipment , it was moved for short duration only. 3. The existing ETP is very old, structurally weak and found leaking at various locations; overall condition is dilapidated. No upgradation of ETP has been carried out, though required for ZLD compliance. Industry has proposed to upgrade the ETP and started the modification work. Purchase order has been issued on 20.12.2025.

				<p>4. Press mud was found dumped unscientifically in the nearby lake area. Industry replied that Once sugarcane crushing start, they have planned to transport press mud to nearby farmers as per their need continuously, which is used as a fertilizer in land. No storage/short duration storage of press mud in plant premises required due to this land. No storage/short duration storage of press mud in plant premises required due to this.</p> <p>5. RRC composting yard with leachate collection system and IP cameras have not been provided. Industry has submitted that instead of composting, Industry has planned to give press mud to farmers for use as a fertilizer in farm. Still necessary directions will be implemented</p> <p>6. Pool of old effluent was observed near the ETP; there was no proper access for collection of joint verification samples from the kaccha lagoon. Industry has submitted the water observed near the ETP is accumulated rainwater, not process effluent. Industry ensures that effluent will be properly treated in the ETP once crushing operations commence</p> <p>7. ESP has not been provided to the boiler. Industry has already installed a Wet Scrubber system as the Air Pollution Control (APC) device for the boiler.</p> <p>Committee also noted that Joint Verification Samples (JVS) of treated industrial effluent collected on 30.12.2024 reveal BOD = 6800 MG/L and 18400 mg/l and 28.02.2025 reveal BOD = 6670 mg/l and COD = 21680 MG/L.</p> <p>Committee also noted that Industry has submitted BG of Rs 50 lakh which is valid upto 31.07.2025.
