## Maharashtra Pollution Control Board

<b>Other Relevant Information</b>	<ol style="list-style-type: none"><li>1. Industry has applied for C to R with increase in CI &amp; increase in effluent quantity without change in product quantity. Industry has separately applied for C to E without increase in production &amp; increase in effluent quantity with proposed CI 41.20 Cr. same application is clubbed herewith.</li><li>2. Case was discussed in CC dtd.16/05/2014 &amp; it was decided to issue SCN as reply submitted by industry to SCN issued by RO is not satisfactory ,wrong details about C.I.increased effluent quantity and installed new boiler without obtaining EC.</li><li>3. Accordingly PP has submitted their reply for SCN dtd.03/06/2014.In which PP has agreed their mistake regarding wrong details about C.I., increased effluent quantity and installed new boiler without obtaining EC. Also reported that they had already obtained full-fledged capacity in existing consent however plant &amp; machinery was not installed as per the consented quantity.</li><li>4. From the reply submitted by PP it seems that PP has obtained consent to operate for entire production instead of in phases .Now there may be possibility of they had increased production quantity compare to earlier capacity &amp; thereby there is increase in effluent generation ,requirement of new boiler, increase in CI.</li><li>5. PP has submitted separate application for C to E (Expansion)in which new boiler ,increase in CI &amp; increase in effluent details mentioned.</li></ol>
<b>Recommendation of SRO/RO</b>	RO has recommended for grant of plain renewal & reported that attracts EC & CETP is not working satisfactorily hence C to E granted with condition to achieve ZLD & not to take effective steps of until obtaining EC .

<b>Submission of Environmental Statement</b>	Period: --
<b>Other Relevant Information</b>	<p>Discussed in <b>CC Meeting, dt: 10/06/2014</b> and it was decided to issue SCN for refusal as not provided STP, water sprinkling system &amp; Heavy fugitive emission was observed from transportation of ORE on the haul road.</p> <p>SCN for refusal issued vide dt: 17/06/2014. In response to SCN for refusal industry has submitted reply vide email, dt: 01/07/2014 &amp; states as,</p> <p>1] At chikhla mine about 620-quarters were constructed back in 1940 and being hilly terrain quarters were made at different locations because of which provision of STP is not feasible. However they have provided effective septic tanks with soak pit. No domestic sewage is allowed to flow in open atmosphere.</p> <p>2] ETP provided at Dongri Buzurg mine which is located at 7.0 km from chikhla mine is used for treatment of effluent generated from tipper / trucks washing. So no generation of workshop effluence. Hence chikhla mine may be exempted from provision of ETP.</p> <p>3] During Board official's visit the trucks engaged for sprinkling of water on haul road was under repair. Now it is repaired and work of sprinkling is in progress. Fixed type rotary water sprinkling through piped network has also been installed for control of fugitive emissions.</p>
<b>Recommendation of SRO/RO</b>	SRO recommended refusal of consent.
