Office Note

Date: 18/09/2018

Sub: Regarding Industry categorization **Stand alone restaurants & Floating Restaurants** .

Ref:1) Agenda for Industry categorization meeting submitted by SRO Mumbai-I for floating restaurants.

With reference to above subject matter, this office is in receipt of Agenda format from **SRO Mumbai-I vide email dt: 17/09/2018 w.r.t. Industry categorization** of floating restaurants.

Restaurants are integral part of tourists visit to place & such services offered by them can make visit. Restaurants are increasingly becoming popular with tourists-both domestic & foreign as they intend to enjoy taste of authentic food , particularly cuisine of different states in the country.

As per **CPCB** industry categorization dt: 07/03/2016, Hotel activities with rooms (Lodging & Boarding activities) under Red, Orange & Green Category based on their pollution potential.

As per **CPCB** industry categorization dt: 07/03/2016, the restaurants /stand alone restaurants/ Floating restaurants are not categorized, hence this agenda item is placed before categorization committee.

The major activities contribute pollution potential - kitchen & washing section - which includes washing of glassware, cooking utensils, cutlery & crockery, to maintain cleanness & hygiene to human being.

Restaurants are mainly water polluting potential, water pollution score is normalized to 100.

Decision of Categorization committee w.r.t. Restaurants / Floating restaurants :

- The Restaurant activity having overall waste water generation 10 KLD or less than 10 KLD to be categorized under Orange Category.
- The Restaurant activity having overall waste water generation 10 KLD or more than 10 KLD to be categorized under Red Category, based on their pollution potential aspects.
- This categorization also applicable to floating restaurants at Maharashtra state jurisdiction.

Submitted for your information & further decision in this matter.
