3	Principal Scientific Officer Maharashtra Pollution Control Board, Mumbai	Member

Sr. No.	Name of the industry	Decision on grant of Category	Section	Remarks/ Discussion
1	M/s. Sanjay Adhesives, Gat No. 242/1, At Kindewadi, Tq: Niphad, Dist: Nashik.	Green	PSO	<p>The industry is involved in manufacture of starch based adhesives powder 150 MT/M. The consent is valid upto 31/05/2015. The said category is already specified in Orange category at 34 number glue from starch physical mixing. The Board has also granted consent in the orange category</p> <p>The industry has submitted that, we have been erroneously classified as industry under Orange category (0-34) : glue from starch (physical mixing). However, we do not prepare glue from starch. We merely remove moisture from starch which has approx.</p>

			<p>12 – 15 % moisture content by baking it and repack 100 % material in HDPE bags with approx. 6-7 % moisture content and sale it. We have checked the categorization list posted on the MPCB Website and our manufacturing process falls under Green Category (G-13 : Blending of melamine resins and different powder, additives by physical mixing).</p> <p>Since the process involve no use of water or effluent generation or toxic emission, the process to be considered under Green category (G-88).</p> <p><u>G- 88, manufacturing of starch adhesive (without blending & mixing.)</u> <i>new cat.</i></p>
2	M/s. Somanda Wine Yard & Resort Pvt. Ltd., Gangaware, Tq. & Dist: Nashik.	Green	<p>PSO</p> <p>The Maharashtra Pollution Control Board has granted consent to establish to manufacture grey point 5,00,000 Lit/Y. under Green category with condition to operate unit for 60 days in a year, as specified by RRZ Committee in their minutes dated 12/11/2012.</p> <p>Further, Board has granted to consent to operate upto 31/08/2014 for manufacture of grape wine 5,00,000 Lit./Y. in Red category with the same condition to operate unit for 60 days in a year, as specified by RRZ Committee in their minutes dated 12/11/2012.</p> <p>Now, industry has requested in their letter dated 10/06/2014</p>

				<p>that, consent may be granted under Green category only. During the manufacturing of wine grapes are fermented with desired bacteria after maturation entire stuff is filtered and filtrate mixed with flavor and preservatives and is packed in a bottle. The solid material removed during filtration is sold as cattle feed.</p> <p>Quantity of effluent is only 2.5 CMD which is easily biodegradable. Hence, it is recommended to consider said process in Green category (G-89) - <u>new cat</u></p>
