[This project requires Environment Clearance under EIA notification dt: 14/09/2006 of MoEF, GOI as amended on dt: 1/12/2009. Therefore the effective date of this consent to establish shall be from the date of obtaining Environment Clearance from competent authority by the project proponent].

3. CONDITIONS UNDER WATER ACT:

- in Tine daily quantity of trade effluent from the factory shall be to
- (ii) The daily quantity of sewage effluent from the actory shall not excall the

(iii) Sewage Effluent Treatment:

Treatment: The applicant shall provide comprehensive treatment system as warranted with reference to influent quality and operate and maintain the same continuously so as to achieve the quality of the treated effluent to the following standards:-

الماث		Between	5.5 to 9.0
0	pH Suspended Solids	Not to exceed	
2 13	BOD 3 Days 27 degree Class	No to exceed	
	Fecal Coliform	Not to exceed	
5	residual chlorine	No te exceed	
6	Detergent	Not to exceed	Came Andrew
17	Floating Matter	Not to exceed	10 mg/
8	COD	Not to exceed	
1 4		(in) (in)	

iv)Sewage Effluent Disposal: The treated domestic effluent shall be 80% flushing, fire fighting and cooling of Air conditioners etc and remaining shall be sewer line provided by local body. In no Case, effluent shall find its way to any directly/indirectly at any time.

Project proponent shall operate STP for five years from the date of obtaining Certificate.

(v)Non-Hazardous Solid Wastes:

			Disposal
Sr. No Type Of Waste	Quantity UOM	Treatment	
SI. NO TYPE OF TRANSPORT	867 Kg/day	Composting	
1 Biodegradable Waste			
		VACUE ROOMER	PRINCE BY HANGE BURNEY
2 Non-Biodegradable	√5784 Kg/Pay		
		tacility#for qusues	
	VI 10 III KO/DEV	Composting	
3 STP Sludge			

(vi)Other Conditions (during Construction Phase):

- All activities shall be in resonance with the provisions of inc (16 of 1927), Forest (Conservation) Act, 1980 (69 of 1980) at (Protection) Act, 1972 (53 of 1972), and special notification published wherever applicable and all the Environmental Statutes and Instituments This Consent to Establish is issued only for New Constitution
- Construction Project purposes.
- No quarrying activities shall be commenced in the area unless appear permissions are obtained for a limited quarrying material required for q of local residential housing and traditional road maintenance work provide such quarrying is not done on Forest Lands and the material is not exported to outside area.
- 4. There shall be no felling of trees whether on Forest, Government, Revenue of Private lands except as per prevailing Rules.
- 5. Extraction of Groundwater for the project shall require prior permission of the praject Ground Water Authority or other relevant authorities, as applicable
- Near the activities that are related to water (like activity of water r sports) and/or in the vicinity of lake Dissolved Oxygen mg/liter

In order to ensure that the water from this project do not enter into cut environment, the nallas crossing the township/complex premises, shall be lined, covered and made water tight by the applicant within the premises with intermittent inspection of chambers following good engineering practices as

The Applicant shall prepare management plan for water harvesting, roof water reclamation, water/storm water conservation and implement the same be

handing over of complex for occupation. Applicant shall provide fixtures for showers, toilet flushing and crinking so sens of low flow either by use of aerators of pressure reducing distinct of sens control.

control.

The Applicant shall draw plans for the segregation of the biodegradable and non-biodegradable components. The biodegradable shall be recycled through scientific in-bouse composting (i.e. very scientific in-bouse composition). disposed off at approved Municipal Solid Waste landfill site of Id environmentally acceptable location and method. It is clarified that the term waste includes domestic, commercial, and garden wastes, but does not hazardous and bio-medical wastes. The activities of bio-compositions and bio-medical wastes. engineered landfill shall be as per the Municipal Solid Waste (M&H) Rules (200

1. Applicant shall be responsible to take adequate precautionary measu

12. The applicant/generator shall be responsible for safe and scientific collection. transportation, treatment and disposal of Bio Medical Waste as per the provisions made under the Bio-Medical Waste (Management & Handling) Rules, 1998 Any activity as defined under BMW (M & H) Rules has to obtain a separate Authorization from Maharashtra Pollution Control Board.

3. For disinfections of waste water ultra violet radiation shall be used in p

- Vehicles hired for construction activities should be operated only during not
- 15. Ready mixed concrete based in building construction and consent from the Board.

 16. applicant, during the construction stage shall provide a. Septic tank and soak pit of adequate capacity for the generated due to workers residing at site.

 by Proper loading and unloading of construction material and its proper loading and unloading of construction material and its proper loading.

Proper loading and unloading of construction material and its proper disposal as per MSW (M&H) Rules 20 construction of trees is not permitted, however in unavoidable necessary permission from the local body shall be obtained

d. Green belt of 33% of the open space shall be developed

Waste shall be disposed to authorized dismantler, recycler reproce

The applicant shall comply with the provisions of the Water (Prevention & Council Pollution) Cess Act, 1977 (to be referred as Cess Act) and amendment Rules 200 under

The daily water consumption for the following categories is as under:

(i) Domestic

540.00 CMD

(ii) Water gets Polluted & Pollutants are Biodegradable

0.00 CMD

(iii) Water gets Polluted, Pollutants are not Biodegradable & Toxic

(iv) Industrial Cooling, spraying

The applicant shall regularly submit to the Board the returns of water consumption prescribed form and pay the Cess as specified under Section 3 of the said Act.

5. CONDITIONS UNDER AIR ACT:

(i) The applicant shall install 1 Nos. of DG Set of capacity (472 KVA) shall be equipped with comprehensive control system consisting of control equipments as is warranted with reference to generation of emission and operate and maintain the sam continuously so as to achieve the level of pollutants to the following standard

Standards for Emissions of Air Pollutants

(v) Conditions for D.G. Set

- a. Noise from the D.G. Set should be controlled by enclosure or by treating the room acoustically
 - enclosure or by treating the room acoustically had a local for control of no acoustic enclosure/ acoustic treatment of the room should of minimum 25 dB (A) insertion loss or for meeting the aniog standards, whichever is on higher side. A suitable exhaust mutiler insertion loss of 25 dB (A) shall also be provided. The measurement insertion loss will be done at different points at 0.5 meters from acc enclosure/room and then average.
 - The industry shall take adequate measures for control of noise from its own sources within the premises in respect of noise to less than 75 dB(A) during day time and 70 dB(A) during the night time. Day time is reckoned between 6 a.m. to 10 p.m and night time is reckoned between 10 p.m to 6 a.m.
 - Industry should make efforts to bring down noise level. outside industrial premises within ambient nois sitting and control mea

- be strictly Set must Installation recommendations of DG Set manufacturer.
- A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer. which would help to prevent noise levels of DG set from deteriorating with
- D.G. Set shall be operated only in case of power failure.
- The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.

Condition

- The applicant shall provide ports in the chimie (5) and chimie adder, platform etc. for monitoring the air emissions and provide the air emissions and provide the air emissions and for use of the Board's Stati The chimie attached to various sources of emission shall be designated by winds as S-1, S-2, etc. and these shall be painted/displayed to facultate reen
- Water spraying shall be done on ground to avoid rugitive em
- Construction material shall be carried in enclosed vehicles activities.

(vii)Conditions for Utilities like Kitchen, Eating Places etc.

- The kitchen shall be provided with exhaust system chimney with catcher connected to chimney through ducting
- The toilet shall be provided with exhaust system connect through ducting.
- The air conditioner shall be vibration proof and the noise shall not exceed
- 4. The exhaust hot air from A.C. shall be attached to Chimney at least 5 mtrs. higher than the nearest tallest building through ducting and shall discharge into open air in such way that no nuisance is caused to neighbors.
- The Applicant shall take adequate measures for control of no lown sources within the complex (residential cum Control of noise to less than 55 dB(A) during day time and 45 dB(A) during day time and 45 dB(A) during day time and 45 dB(A) between 6 a matter 10 p.m. and 15 dB(A) between 10 p.m. to 6 a.m. between 10 p.m. to 6 a.m.
- Construction equipments generating noise of less than 65/90 do permitted.
- No construction work is permitted during night time

6 CONDITIONS UNDER HAZARDOUS WASTE (MANAGEMENT, HAND) ING TRANSBOUNDRY MOVEMENT) RULES, 2008:

The Industry shall handle hazardous wastes as specified below

Sr. No. Type Of Waste	Quantity UOM Disposal	
1 5.1 Used /spent oil	50 MT /Year Sale to Authorizes	
	1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1 1	

- 7. The applicant shall certify that the bricks used in construction are manufactured using the ash from Thermal Power stations if it is within a radius of 100 km. from Thermal Power Plant and submit the names of bricks manufacturer. The applicant shall use by ash based material/products as per the provisions of fly ash Notification of 14.09.1999 and as amended on 27.08.2003.
 - 9 The applicant shall obtain Consent to Operate from Maharashtra Pollution Control Board before commissioning of the project.
 - applicant shall adopt environment friendly technology

- 11. The applicant shall take the proper remediation measures to ensure that the ground Water and soil contamination is prevented and follow due diligence at the construction Stage
- 12. Energy conservation measures like installation of solar panels for lighting the area Outside the building should be integrated part of the project design.
- 13. This Board reserves the right to amend or add any conditions in this consent and the Same shall be binding on the Applicant
- 14. Applicant shall use fly ash based material/products as per the provision of 14.9.1999 and as amended on 27/8/2003.
- 15. The Applicant shall provide Environmental Friendly load Transportation by adopting mechanical type closed trucks for transportation of minerals 8 metals/constructs between with effect from 1/04/2012.
- 16. This consent shall not be construed as exemption from obtaining necessary NOC from any other Government agencies as may deemed fit necessary.
- 17. Applicant has stopped construction work voluntarily as pen the SRO report pater 08/02/2013 and shall submit affidavit to that effect to MPG Board within 15 days period
- 18. The applicant should not take any further effective steps for implementation of the project prior obtaining Environment clearance as per EIA Notification dated, 2006.
- 19. The applicant shall submit a Bank Guarantee of Rs.6, 00,000/- at Regional Officer, Thane within 15 days for compliance of Consent to establish conditions.
- 20. The consent is issued pursuant to the decision of the 21st Consent Committee meeting of the Board in its meeting held on 28/03/2013.

21. The Capital investment of the industry is Rs 35 50 Crs
