Kalpataru Point, 3rd & 4th floor, Sion-  
 Matunga Scheme Road No. 8, Opp.  
 Cine Planet Cinema, Near Sion Circle,  
 Sion (E),  
 Mumbai - 400 022

*Rec/L.S.I*

*Date: 19/06/2014*

**Consent No. B.O/AST/MC/NORU-2024-14/Amalgamation/Gen- 5824**

**Consent to Operate under Section 26 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization / Renewal of Authorization under Rule 5 of the Hazardous Waste (Management, Handling & Transboundary Movement) Rules 2008.**

[To be referred as Water Act, Air Act and HW (M&H) Rules respectively].

**CONSENT is hereby granted to**

Asundhara Raayam Ltd.  
 Plot No. C-104, Mahad,  
 Dist-Ratnagiri-402301  
 Maharashtra, India

located in the area declared under the provisions of the Water Act, Air act and Authorization under the provisions of PWMD Act, rules and amendments thereto subject to the provisions of the Amending Rules and the Orders that may be made further and subject to the following terms and conditions.

**1. The Consent to Operate is granted for a period up to 30/06/2019.**

**2. The Consent is valid on the manufacture of**

Sr. No.	Product Name	Maximum Quantity	UOM
1	Iso Butyl Acrylate (IP)	200	MT/M
2	Dried Aluminium Hydroxide Gel (IP/BP/USP)	60	MT/M
3	Magnesium Nitro oxide (IP/BP/USP)	20	MT/M
4	Magnesium Trisilicate (IP/BP/USP)	5.0	MT/M
5	Aluminum Phosphate (IP/BP/USP)	10	MT/M
6	Magnesium Carbonate (IP/BP/USP)	5.0	MT/M
<b>BY PRODUCTS</b>			
1	HCL	150	MT/M
2	Intermediate Aluminium Chloride (PAC)	2000	MT/A

### **3. CONDITIONS UNDER WATER ACT:**

- (i) The daily quantity of trade effluent from the factory shall not exceed 205 M<sup>3</sup>.
- (ii) The daily quantity of sewage effluent from the factory shall not exceed 5.0M<sup>3</sup>.

(iii) Trade Effluent:

The applicant The applicant shall provide comprehensive treatment system consisting of primary, secondary & tertiary treatment system and shall be warranted with reference to influent quality and shall operate to maintain the same continuously so as to achieve the quality of the treated effluent to the following standards:

1.	pH	Between	5.5 to 8.5
2.	Suspended Solids	Not to exceed	100 mg/l
3.	BOD 3 days 27°C	Not to exceed	100 mg/l
4.	COD	Not to exceed	250 mg/l
5.	Oil & Grease	Not to exceed	10 mg/l
6.	Inorganic Dissolved Solids	Not to exceed	2100 mg/l
7.	Bio-toxicity	90% survival of fish after first 96 hrs in 100% effluent	
8.	Sulphates	Not to exceed	1000 mg/l
9.	Chlorides	Not to exceed	600 mg/l
10.	Iron	Not to exceed	50 mg/l
11.	Zinc	Not to exceed	50 mg/l
12.	Phosphates (P)	Not to exceed	50 mg/l

(iv) Trade Effluent Disposal: The treated trade effluent shall be recycled /reused to maximum extent and remaining should be disposed in CETP. There shall not be any discharge outside the factory premises.

(v) Sewage Effluent Treatment: The applicant shall provide comprehensive treatment system as is warranted with reference to influent quality and operate and maintain the same continuously so as to achieve the quality of treated effluent to the following standards:

- (1) Suspended Solids Not to exceed 100 mg/l
- (2) BOD 3 days 27°C Not to exceed 100 mg/l

(vi) Sewage Effluent Disposal: The treated domestic effluent shall be soaked in a soak pit which shall be cleaned periodically. Overflow, if any, shall be used on land for gardening/plantation only.

(vii) Non-Hazardous Solid Wastes:

Sr. No.	Type	Quantity	UOM	Treatment	Disposal
	Waste				

(viii) Other Conditions: Industry should monitor effluent quality regularly.

4. The applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Cess Act, 1974 (to be referred as Cess Act) and amendment Rules, 2003 there under.

The daily water consumption for the following categories is as under:

- (i) Domestic purpose 5.5 CMD
- (ii) Water gets Polluted & Pollutants are Biodegradable 218 CMD
- (iii) Water gets Polluted, Pollutants are not Biodegradable & Toxic 0.00 CMD
- (iv) Industrial Cooling spraying in mine pits or boiler feed 7.0 CMD

The applicant shall regularly submit to the Board the returns of water consumption in the prescribed form annually in the case as specified under Section 3 of the said Act.

## 5. CONDITIONS UNDER AIR ACT:

- (i) The applicant shall install a comprehensive control system consisting of control equipment, as may be required, with reference to generation of emissions for control and maintaining the same continuously so as to achieve the level of pollutants to the following standards:

### a. Control Equipment:

- Industry shall provide dust collector/scrubber of sufficient capacity to control dust emissions.

### Conditions for DG Set:

- a. Noise from the DG Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
- b. Industry should provide acoustic enclosure for control of noise. The acoustic enclosure, acoustic treatment of the room, which is designed for minimum 25 dB (A) insertion loss in for meeting the ambient noise standard, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB(A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure room and then average.
- c. The industry shall take adequate measures for control of noise levels from other sources within the premises in respect of noise to less than 50 dB(A) during the day time and 45 dB(A) during the night time. Day time is reckoned between 6 a.m. to 10 p.m and night time is reckoned between 10 p.m. to 6 a.m.
- d. Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper sterilization control measures.
- e. Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
- f. A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
- g. DG Set shall be operated only in case of power failure.
- h. The applicant should not cause any nuisance in the surrounding area due to operation of DG Set.

### b. Standards for Stack Emissions:

1) SPM	Not to exceed	150	mg/Nm <sup>3</sup>
2) SO <sub>2</sub> (from natural)	Not to exceed	50.0	kg/day
3) SO <sub>2</sub> (from Oil fuel)	Not to exceed	135	kg/day
4) Acid Mist	Not to exceed	35	mg/Nm <sup>3</sup>

- (i) The applicant shall observe the following fuel pattern:-

Sr. No.	Type Of Fuel	Quantity	UOM
1	Petroleum Oil	1.5	MT/day
2	Coal	5.00	MT/day

(ii) The industry shall erect the chimney(s) of the following specification:

Sr. No.	Chimney Attached To	APC provided	Height in Mtrs
1	Burner (MHP) attached	Dust collector/cyclone	63.00
2	An heater	Scrubber	20.00
3	Spray Drier	Scrubber	20.00
4	DIC Scrubber	enclosure	4.5*
5	DG Scrubber	enclosure	2.5*

\*above the roof in which the plant is installed.

(iii) The industry shall provide access along the chimney(s) and facilities such as ladder, platform etc. for monitoring the air emissions and the same shall be open for inspection by Board for use of the Board's Staff. The chimney(s) vents attached to various sources of emission shall be designated by numbers such as 'S 1', 'S 2', etc. and these shall be painted/displaced to facilitate identification.

(iv) The industry shall take adequate measures for control of noise levels from its own sources within the premises so as to maintain ambient air quality standard in respect of noise of less than 75 dB(A) during day time and 70 dB(A) during night time. Day time is reckoned between 6 a.m. and 10 p.m. and night time is reckoned between 10 p.m. and 6 a.m.

#### (vi) Other Conditions:

- 1) The industry should not cause any nuisance in surrounding area.
- 2) The industry should monitor stack emissions and ambient air quality regularly.

### 6. CONDITIONS UNDER HAZARDOUS WASTE (MANAGEMENT, HANDLING & TRANSPORTATION) RULES, 2008:

(i) The industry will handle hazardous wastes as specified below:

Sr. No.	Type Of Waste	Quantity	UOM	Disposal
1	343. Chemicals from waste water treatment	250.00	Kgs/day	CHWTSDF
2	28. Re values and wastes	200.00	Kgs/day	CHWTSDF

#### (i) Treatment: NIL

The authorization is hereby granted to operate a facility for collection, storage, transport & disposal of hazardous waste.

2. The industry should comply with the Hazardous Waste (M&H) Rules, 2003.

- a. Whenever due to any accident or other unforeseen act or even such emission occurs it is apprehended to occur in excess of standards laid down such information shall be forthwith reported to Board, concerned Police Station, office of Directorate of Health Services, Department of Explosives, Inspectorate of Factories and Local Body. In case of failure of pollution control equipments the production process connected to it shall be stopped.

b. What ever has to do with waste, maintain the data online outside the factory premises in Mysore and display it on a 6x4' display board in the premises and The record of waste compliance along with photograph shall be submitted to this office or concerned Regional Office, Sub-Regional Office. It shall be ensured that the hazardous waste is handled, managed & disposed off satisfactorily in accordance with the Hazardous Waste Management Handbook Rules 1989 as amended on 2003 and shown &

**7. Industries shall comply with following additional conditions:**

- i. The applicant shall maintain good housekeeping and take adequate measures for prevention of pollution from all sources so as not to cause nuisance to surroundings and inhabitants.
- ii. The proposed site shall have minimum 33% of the available open land under green coverage.
- iii. Solid waste - Generation of hazardous solid waste arising in the factory premises, sweeping etc. shall be disposed of scientifically so as not to cause any nuisance / for disposal of which the applicant shall take necessary permission from civic authorities.
- iv. The applicant shall provide for an alternate electric power source sufficient to operate all pollution control facilities installed by the applicant to maintain compliance with the terms and conditions of the consent. In the absence, the applicant shall stop production or otherwise ensure production to abide by terms & conditions of the consent regarding pollution levels.
- v. The applicant shall not change or alter quantity, quality, the rate of discharge, temperature or the mode of the effluent / emissions or hazardous wastes or control equipments provided, without previous written permission of the Board.
- vi. The applicant shall own the facility for collection of environmental samples and samples of trade and sewage effluents, air emissions and hazardous wastes to for the services required for this purpose.
- vii. The firm and its agents shall submit application for renewal of the consent at least 60 days before the date of expiry of the consent.
- viii. The firm and its agents shall file, on or before the 30<sup>th</sup> day of September every year, the prescribed Statement Report for the financial year ending 31<sup>st</sup> March in the Format O-3 (Second Amendment) Rules 1992.
- ix. An inspection book shall be opened and made available to the Board's officers during their visit to the applicant.
- x. The applicant shall install a separate electric meter showing the consumption of energy for operation of domestic and industrial effluent treatment plants and air pollution control system. A register showing consumption of chemicals used for treatment shall be maintained.
- xi. Separate drainage system shall be provided for collection of trade and sewage effluents. Terminal manholes shall be provided at the end of collection system with arrangement for measuring the flow. No effluent shall be admitted in the pipes / sewer other than for the treatment purposes. No effluent shall find its way other than through the and outlet collection System.
- xii. Neither storm water nor discharge from other premises shall be allowed to mix with the effluents from the factory.

6. If CETP does not work for achieving standards & problem of pollution occurs, industry shall voluntarily stop the production or total effluent shall be reused.
9. The consent should not be construed as any exemption from obtaining necessary NOC from other Govt. agencies as may deemed fit necessary.
10. The industry shall also comply with the Industry specific standards notified under Environment Protection.
11. This Board reserves the right to amend or add any conditions in this consent and the same shall be binding on the Applicant.
12. The overall production quantities shall not exceed the consented limits and there shall not be any increase in pollution load.
13. This consent is issued by amalgamation of earlier consent No. BO/AST/EIO/No.BP/2581/13/O/Cent/05/2010 dtd.13/05/2013 & BO/RO Raigad/PC/7610/0940-08/R/Cent/06/04/05/08/2008.
14. Industry shall comply the conditions stipulated in the Environmental clearance letter No.SIEA/2011/GR-51470 dated 30/06/2012.
15. Industry shall submit Bank Guarantees of Rs 3.0 lakh towards compliance of conditions stipulated in Interim Direction dtd-9/12/13 issued by Regional Officer, Mumbai & Compliance of consent conditions for a period of upto 30/09/2013 at Regional Office, MPCB, Raigad within 10 days.
16. The Capital Investment of the industry is Rs. 11.42 Cr.
