

1	Process vents	3 (No.)	As per Schedule-II
2	DI set	1 (No.)	As per Schedule-II
3	HT oil Heater	2 (No.)	As per Schedule-II

Sr. no.	Type Of Waste	Quantity & UoM	Treatment	Disposal
1	Biological Sludge from ETP	20 MT/M	—	Landfilling
2	Other debris like insulation, packaging materials etc	5 MT/M	—	CHWTSDF

7. Conditions under Hazardous Waste (MH & TM) Rules, 2008 for treatment and disposal of hazardous waste:

Sr. No.	Type of Waste	Category	Quantity	UoM	Treatment	Disposal
1	Still bottle from distillation	1.6	1535.8	No/M	N.A	Use as fuel heater
2	Discarded container/barrels/liners	33.3	180	MT/A	N.A	Washed and reuse
3	Discarded bags used for hazardous chemicals	33.3	8.7	MT/A	N.A	Washed and reuse
4	Chemical Sludge from water treatment	34.3	18.0	MT/A	N.A	Sent to CHWTSDF
5	Spent Carbon	35.3	23.7	MT/A	N.A	Sent to CHWTSDF
6	Ash from incineration hazardous waste	36.2	9.5	MT/A	N.A	Sent to CHWTSDF
7	Spent catalyst and molecules sieve	1.7	80.0	No/A	N.A	Sent back to manufacturer
8	Used oil/spent Oil	5.1	35.0	MT/A	N.A	Sale CPCB/MPCB authorized reproprocessors
9	Discarded asbestos	15.2	43.0	MT/A	N.A	Sent to CHWTSDF

8. The Board reserves the right to review, amend, suspend, revoke etc. this consent and the same shall be binding on the industry.
9. This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Government authorities.
10. The applicant shall install online continuous stack emission monitoring system and online effluent quality monitoring systems at the outlet of effluent treatment plant for measurement of consented parameters by 30.06.2015 & to connect and upload the online emissions and effluent monitoring data at MPCB and CPCB server in time bound manner. Industry shall submit BG of 100 % of the cost of the online monitoring systems (emissions and effluent which ever applicable) for ensuring timely installation of online monitoring systems by 30.06.2015. BG shall be discharged

If industry installs the same. If the industry fails to install the same by 30.09.2014, the consent to operate will be withdrawn and the BC will be applied. This is in accordance with the MOU directions dated 02.04.2013.

For and on behalf of the  
Maharashtra Pollution Control Board

(Dr. P. Anbalagan, IAS)  
Member Secretary

Received Consent fee of -

Sr. No.	Amount (Rs)	DD No.	DD Dte.	Drawn On
1	4103092	039883	08.07.2014	SBI Bank
2	783830	561893	22.04.2015	SBI Bank

Copy to:

1. Regional Officer -Navi Mumbai and Sub-Regional Officer-Taloja, MPCB.  
They are directed to ensure the compliance of the consent conditions.
2. Chief Accounts Officer, MPCB, Mumbai.
3. CC/CAC desk- for record & website updation purposes.

Terms & conditions for compliance of Water Pollution Control:

A] The Applicant shall install and operate an effluent treatment plant (ETTP) with the design capacity of 700 CMD.

B] The Applicant shall operate the combined effluent treatment plant (ETTP) to treat the trade effluent so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.

Sr No.	Parameters	Standards as per EP Act, 1986
		Limiting Concentration in mg/l, except for pH
01	pH	6.0-8.5
02	Oil & Grease	10
03	BOD (3 days 27°C)	100
04	Total Dissolved Solids	2100
05	Bioassay Test	90% survival of fish after first 96 hrs in 100% effluent
06	Suspended Solids	100
07	COD	250
08	Chloride	600
09	Sulphate	1000
10	TAN	50
11	% Sodium	60%

C ) The treated effluent shall be recycled to maximum extent and remaining treated effluent shall be disposed into CETP.

D] In case the treatment system is combined for trade effluent and sewage then the standards and disposal path prescribed at sr. no.1 B & C of schedule I shall be applicable.

- 2) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or/and extension or addition thereto.
- 3) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.

- 4) The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Cess Act, 1977 and amendments by installing water meters, using water meter returns in Form I and other documents contained in the said act.

Sl. No.	Description of the activity	Rate per unit (INR)
1.	Industrial Cooling, spraying in mine pits or boiler feed	3452.0
2.	Domestic purpose	74.0
3.	Processing whereby water gets polluted & pollutants are easily biodegradable	634.0
4.	Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic	00.0

- 5) The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time/ Environmental Clearance / CREP guidelines.

Terms & Conditions for consent to use of Air Pollution Control

1. As per your application you have provided the Air pollution control (APC) system and also erected following stack (s) and to observe the following fuel pattern-

Sl. No.	Stacks	APC System	Height in meters	Fuel	Capacity & usage	No. of stacks	Sl. No.
1	Ventury scrubber (3 nos)	Stack	50.0 (Each)	N.A	N.A	N.A	N.A
2	Boiler	Stack	55.0	F.O.	10 MT/D	4	900
3	H. oil heater (2 Nos)	Stack	31.0 (Each)	FO + Distillation residue	70 MT/D	1	900
4	D.G. Set (2000 KVA)	Stack	15.0 (above the roof)	HSD	8.30 MT/D	1	166

2. The Applicant shall provide Specific Air Pollution control equipments as per the conditions of EP Act, 1986 and rule made there under from time to time / Environmental Clearance / CREP guidelines.

3. Standards for Emissions of VOC Pollutants:

Sl. No.	Petrochemical compounds	Process	Maximum emission limit (mg/Nm <sup>3</sup> ) dry basis
1	MA, PA, Phenol		20
2	Ethyl benzene (EB), Styrene, Toulene, Xylene, Aromatics, EG, PG		100
3	Non-methane HC (paraffin), Acetone, olefins		150

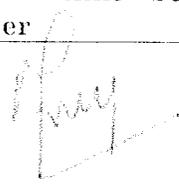

4. The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards:

Particulate matter	Not to exceed	150 mg/Nm <sup>3</sup> .
SO <sub>2</sub> Process	Not to exceed	50 ppm
NO <sub>x</sub>	Not to exceed	50 ppm

5. The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement/alteration well before its life come to an end or erection of new pollution control equipment.
6. The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).

Schedule III  
Details of Consent Conditions

Sr. No.	Consent (C to R)	Cost of PG imposed	Submission Period	Purpose of PG	Compliance Period	Validity Date
1.	PD issued dated 12.02.2015	Rs. 10 Lakh	Within 15 days from the date of issue of consent	O & M of pollution control system	28.02.2018	30.06.2018
2	C to R	100 % of the cost of the online monitoring systems (emissions and effluent which ever applicable)	Within 15 days from the date of issue of consent	The applicant shall install online continuous stack emission monitoring system and online effluent quality monitoring systems at the outlet of effluent treatment plant for measurement of consented parameters by 30.06.2015 & to connect and upload the online emissions and effluent monitoring data at MPCB and CPCB server time bound manner	30.06.2015	30.10.2015

#### Schedule-IV

##### General Conditions

- 1) The applicant shall provide facility for collection of environmental samples, such as rain water, effluent water, etc. for monitoring and hazardous waste under the Board's consent. The applicant shall provide all such data to the Board on an ongoing basis for its benefit.
- 2) If the MHD pipeline is broken/ overflowing chamber, in such cases industry shall not discharge their treated effluent into MHD drain, it shall be sent to CETP by truck.
- 3) Industry should monitor effluent quality, stack emissions and ambient air quality monthly/quarterly.
- 4) The applicant shall provide ports in the chimney(s) and facilities such as ladder, platform etc. for monitoring the air emissions and the same shall be open for inspection to/and for use of the Board's Staff. The chimney(s) vents attached to various sources of emission shall be designated by numbers such as S-1, S-2, etc. and these shall be painted/ displayed to facilitate identification.
- 5) Whenever due to any accident or other unforeseen act or even, such emissions occur or is apprehended to occur in excess of standards laid down, such information shall be forthwith Reported to Board, concerned Police Station, office of Directorate of Health Services, Department of Explosives, Inspectorate of Factories and Local Body. In case of failure of pollution control equipments, the production process connected to it shall be stopped.
- 6) The applicant shall provide an alternate electric power source sufficient to operate all pollution control facilities installed to maintain compliance with the terms and conditions of the consent. In the absence, the applicant shall stop, reduce or otherwise, control production to abide by terms and conditions of this consent.
- 7) The firm shall submit to this office, the 30th day of September every year, the Environmental Statement Report for the financial year ending 31st March in the prescribed Form-V as per the provisions of rule 14 of the Environment (Protection) (Second Amendment) Rules, 1992.
- 8) The industry shall recycle/reprocess/reuse/recover Hazardous Waste as per the provision contain in the HW(MH&TM) Rules 2008, which can be recycled
- 9) /processed/reused/recovered and only waste which has to be incinerated shall go to incineration and waste which can be used for land filling and cannot be recycled/reprocessed etc should go for that purpose, in order to reduce load on incineration and landfill site/environment.
- 10) The industry should comply with the Hazardous Waste (M,H & TM) Rules, 2008 and submit the Annual Returns as per Rule 5(6) & 22(2) of Hazarsous Waste (M,H & TM) Rules, 2008 for the preceding year April to March in Form-IV by 30<sup>th</sup> June of every year.
- 11) An inspection book shall be opened and made available to the Board's officers during their visit to the applicant.
- 12) The applicant shall make an application for renewal of the consent at least 60 days before the date of the expiry of the consent (in case of Renewal of consent).
- 13) Industry shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act, 1986 and industry specific standard under EP Rules 1986 which are available on MPCB website([www.mpcb.gov.in](http://www.mpcb.gov.in)).
- 14) The industry shall constitute an Environmental cell with qualified staff/personnel/agency to see the day to day compliance of consent condition towards Environment Protection.
- 15) Separate drainage system shall be provided for collection of trade and sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No effluent shall be admitted in the pipes/sewers downstream of the terminal manholes. No effluent shall find its way other than in designed and provided collection system.
- 16) Neither storm water nor discharge from other premises shall be allowed to mix with the effluents from the factory.

17) The applicant shall install a separate meter for measuring the consumption of energy for operation of domestic and industrial. The air treatment plants and air pollution control system. A register showing consumption of electricity used for treatment shall be maintained.

18) Noise Control:

- a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
  - b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
  - c) Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper siting and control measures.
  - d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
  - e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
  - f) D.G. Set shall be operated only in case of power failure.
  - g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
  - h) The applicant shall comply with the notification of MoEF dated 17.05.2002 regarding noise limit for generator sets run with diesel.
- 19) The industry should not cause any nuisance in surrounding area.
- 20) The industry shall take adequate measures for control of noise levels from its own sources within the premises so as to maintain ambient air quality standard in respect of noise to less than 75 dB (A) during day time and 70 dB (A) during night time. Day time is reckoned in between 6 a.m. and 10 p.m. and night time is reckoned between 10 p.m. and 6 a.m.
- 21) The applicant shall maintain good housekeeping.
- 22) The applicant shall bring minimum 33% of the available open land under green coverage/ plantation. The applicant shall submit a statement on available open plot area, number of trees surviving as on 31<sup>st</sup> March of the year and number of trees planted by September end, with the Environment Statement.
- 23) The non-hazardous solid waste arising in the factory premises, sweepings, etc. be disposed of scientifically so as not to cause any nuisance / pollution. The applicant shall take necessary permissions from civic authorities for disposal of solid waste.
- 24) The applicant shall not change or alter the quantity, quality, the rate of discharge, temperature or the mode of the effluent/emissions or hazardous wastes or control equipments provided for without previous written permission of the Board. The industry will not carry out any activity, for which this consent has not been granted/without prior consent of the Board.
- 25) The industry shall ensure that fugitive emissions from the activity are controlled so as to maintain clean and safe environment in and around the factory premises.
- 26) The industry shall submit quarterly statement in respect of industries' obligation towards consent and pollution control compliance's duly supported with documentary evidences (format can be downloaded from MPCB official site).
- 27) The industry shall submit official e-mail address and any change will be duly informed to the MPCB.
- 28) The industry shall achieve the National Ambient Air Quality standards prescribed vide Government of India, Notification dtd. 16.11.2009 as amended.
