Kalpataru Point, 3rd & 4th floor, Sion- Matunga Scheme Road No. 8, Opp. Cine Planet Cinema, Near Sion Circle, Sion (E),

Mumbai - 400 022

Consent order No: -Format 1.0/BO/AS(T)/TN-5796-15/CC Cell/R/CC-6393 Date-29 (05 | 2015

To,

M/s Calyx Chemicals and Pharmaceuticals Pvt. Ltd.,

Plot No. N-90, MIDC Tarapur,

Tal. & Dist. Palghar, Pin - 401 506.

Subject: Renewal of Consent to Operate under Red/LSI category.

Ref.: 1. Earlier Consent to Operate granted vide Consent no. BO/JD-PAMS

2. Minutes of CC meeting held on 22/05/2015.

Your application No. CR1504000511

Dated: 25/03/2015

For: Grant of Consent to Operate (150506FT0080) under Section 26 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization /renewal under Rule 5 of the Hazardous Wastes (M, H & T M) Rules 2008 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I, II, III & IV annexed to this order:

- 1. The consent is granted for a period upto 31/03/2020.
- 2. The capital investment of the industry is Rs. 26.70 Crs (As per C.A. Certificate

3. The Consent is valid for the manufacture of -

Schedule-J

Terms & conditions for compliance of Water Pollution Control:

- 1) A] As per your application, you have provided Effluent Treatment Plant (ETP) of designed capacity 10 CMD consisting of primary, secondary & tertiary level treatment for the treatment of 7.0 CMD of industrial effluent. After treatment, treated effluent is discharged into CETP for further treatment and disposal.
 - BJ The Applicant shall operate the effluent treatment plant (ETP) to treat the trade effluent so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent:

Sr. No.	Parameters	Standards prescribed by Board (If any)
	l. Compulsory Parameters	
	рН	Limiting Concentration in mg/l, except for pu
02	Oil & Grease	O19 CO D17
	BOD (3 days 27oC)	TO mg/l.
	Total Dissolved Solids	100 mg/l.
	II Additional Parameters	2100 mg/l.
	Suspended Solids	W.
	COD	100 mg/l.
7 (250 mg/l.
8 S	Sulphate	600 mg/l.
	reated effluent shall be rev	1000 mg/l.

- C] The treated effluent shall be reused/recycled upto maximum extent in the process and remaining shall be discharged into CERP for further treatment & disposal. There shall not be any discharge outside the factory's premise.
- A] As per your consent application, you have provided the septic tank followed by soak pit for the treatment of sewage. Overflow, if any shall be applied on land for
 - B] The Applicant shall operate the sewage treatment system to treat the sewage so as to achieve the following standards/ prescribed under EP Act, 1986 and Rules made there under from time to time, whichever is stringent.
 - Suspended Solids. Not to exceed BODA days 27oc. Not to exceed
 - C] In case the treatment system is combined for trade effluent and sewage then the standards and disposal path prescribed at Sr. No. (1) (B) & (C) of schedule-I shall be
- 3) The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system and/ or extension
- 4) The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
- 5) The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Cess Act, 1977 and as amended, by installing water meters, filing water Cess returns in Form-I and other provisions as contained in the said act.

		Scrubber	15		•	- *	-

The Applicant shall provide Specific Air Pollution control equipments as per the conditions of EP Act, 1986 and rule made there under from time to time/ Environmental Clearance/

3. The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following sta

B	and some wing promingle of the
Particulate matter	Not to exceed 150 mg/Nm ³
SO ₂ (Boiler)	7. 2. 2. 2. 2. 2. 2. 2. 2. 2. 2. 2. 2. 2.
NOx	Not to exceed 132,3 Kg/day
NH ₃	Not to exceed 50 ppm
	Not to exceed 35 ppm
Acid Mist/ HCl	
Acid Mist/ HCI	Not to exceed 35 mg/Nm ³

4. The gaseous emissions (SO_2 , HCl, NO_X , NH_3 etc.) & particulate matter from various process units shall confirm to the standards prescribed by the concerned authorities from time to time. At no time, the emission levels shall go beyond the stipulated standards. In the event of failure of pollution control system(s) adopted by the unit, the respective unit shall not be restarted until the control measures are rectified to achieve the desired

5. The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement/alteration well before its life come to an end or erection of new pollution

6. The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).

Schedule-IV

General Conditions:

The applicant shall provide facility for collection of environmental samples and samples of trade and sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered

If the MIDC pipeline is broken/ overflowing chamber, in such cases industry shall not discharge their treated effluent into MIDC drain, it shall be sent to CETP by tanker.

Industry should monitor effluent quality, stack emissions and ambient air quality

The applicant shall provide ports in the chimney/(s) and facilities such as ladder, platform etc. for monitoring the air emissions and the same shall be open for inspection to/and for use of the Board's Staff. The chimney(s) vents attached to various sources of emission shall be designated by numbers such as S-1, S-2, etc. and these shall be painted/displayed to facilitate identification.

Whenever due to any accident or other unforeseen act or even, such emissions occur or is apprehended to occur in excess of standards laid down, such information shall be forthwith Reported to Board, concerned Police Station, office of Directorate of Health Services, Department of Explosives, Inspectorate of Factories and Local Body. In case of failure of pollution control equipments, the production process connected to it shall be

The applicant shall provide an alternate electric power source sufficient to operate all pollution control facilities installed to maintain compliance with the terms and conditions of the consent. In the absence, the applicant shall stop, reduce or otherwise,

control production to abide by terms and conditions of this consent.

The firm shall submit to this office, the 30th day of September every year, the Environmental Statement Report for the financial year ending 31st March in the prescribed Form-V as per the provisions of rule 14 of the Environment (Protection) (Second Amendment) Rules, 1992.

8) The industry shall recycle/reprocess/reuse/recover Hazardous Waste as per the contain in MT&HM/WH the recycled/processed/reused/recovered and only waste which has to be incinerated shall go Rules 2008, to incineration and waste which can be used for land filling and cannot be recycled/reprocessed etc should go for that purpose, in order to reduce load on incineration and landfill site environment.

The industry should comply with the Hazardous Waste (M,H & TM) Rules, 2008 and submit the Annual Returns as per Rule 5(6) & 22(2) of Hazardous Waste (M,H & TM) Rules, 2008 for the preceding year April to March in Form-IV by 30th June of every

10) An inspection book shall be opened and made available to the Board's officers during their visit tofthe applicant.

The applicant shall make an application for renewal of the consent at least 60 days before the date of the expiry of the consent..

12) Industry shall strictly comply with the Water (P&CP) Act, 1974, Air (P&CP) Act, 1981 and Environmental Protection Act, 1986 and industry specific standard under EP Rules 1986 which are available on MPCB website(www.mpcb.gov.in).

industry shall constitute an Environmental staff/personnel/agency to see the day to day compliance of consent condition towards

- 14) Separate drainage system shall be provided for collection of trade and sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No effluent shall be admitted in the pipes/sewers downstream of the terminal manholes. No effluent shall find its way other than in designed and provided collection system.
- 15) Neither storm water nor discharge from other premises shall be allowed to mix with the
- 16) The applicant shall install a separate meter showing the consumption of energy for operation of domestic and industrial effluent treatment plants and air pollution control

"M/s Calyx Chemicals and Pharmaceuticals Pvt. Ltd."SRO Tarapur 1/1/R/L/77665000

Page 7 of 8

system: A register showing consumption of chemicals used for treatment shall be maintained.

17) Conditions for D.G. Set

Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.

Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.

Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper sitting and

control measures.

Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.

A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which prevent noise levels of DG set from deteriorating with use Would help to

D.G. Set shall be operated only in case of power failure.

The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.

The applicant shall comply with the notification MoEF dated 17.05.2002 regarding noise limit for generator sets run with diesel

18) The industry should not cause any nuisance in surrounding area.

19) The industry shall take adequate measures for control of noise levels from its own sources within the premises so as to maintain ambient air quality standard in respect of noise to less than 75 dB (A) during day time and 70 dB (A) during night time. Day time is reckoned in between 6 a.m. and 10 pm. and night time is reckoned between 10

20) The applicant shall maintain good housekeeping.

21) The applicant shall bring minimum 33% of the available open land under green coverage/ plantation. The applicant shall submit a yearly statement by 30th September every year on available open plot area, number of trees surviving as on 31st March of the year and number of trees planted by September end.

22) The non-hazardous solid waste arising in the factory premises, sweepings, etc. be disposed of scientifically so as not to cause any nuisance / pollution. The applicant shall

take necessary permissions from civic authorities for disposal of solid waste.

23) The applicant shall not change or alter the quantity, quality, the rate of discharge, temperature or the mode of the effluent/emissions or hazardous wastes or control equipments provided for without previous written permission of the Board. The industry will not carry out any activity, for which this consent has not been granted without prior consent of the Board.

24) The industry shall ensure that fugitive emissions from the activity are controlled so as

to maintain clean and safe environment in and around the factory premises.

- 25) The industry shall submit quarterly statement in respect of industries obligation towards consent and pollution control compliance's duly supported with documentary evidences (format can downloaded from MPCB official site).
- 26) The industry shall submit official e-mail address and any change will be duly informed

27) The industry shall achieve the National Ambient Air Quality standards prescribed vide Government of India, Notification dt. 16.11.2009 as amended.

The industry shall recycle/reprocess/reuse/recover hazardous waste as per the provision contained in the HW(M,H & TM) Rules 2008, which can be recycled/ processed/ reused/ recovered and only waste which has to be incinerated shall go to incineration and waste which cannot be used for land filling and cannot be recycled/ reprocessed etc. should go for that purpose in order to reduce load on incineration and landfill site/environment.
