				<p>Clearance, being the category of the industry is not covered under EIA notification 2006, the proposed construction is above 20,000 sq. mtrs BUA, hence requires to obtain necessary EC. This shows that any category of industry even if not covered under the EIA notification 2006 for projects requiring EC, if construction is above 20,000 sq. mtrs BUA, then it requires to obtain necessary prior EC.</p> <p>S.L.O pointed out that the present case is somewhat different and not similarly situated because in the instant case of Baramati hitech Park Ltd., prior to 2009 amendment to the EIA notification, park could have been covered only if the development area is more than 50 hectares and therefore at that time in 2008, C to E was granted without EC requirement.</p> <p>Now, the unit has already been established and applied for grant of consent to operate, to which the amendment of 2009 cannot be made applicable retrospectively.</p> <p>It was decided that this matter should also be referred for further clarification to the Env't. Dept., pointing about facts and circumstances.</p>
