9. RO Pune has stated that, as the industry has not submitted the feasibility report of up gradation of existing ETP and STP with scientific disposal system as per previous consent condition and reply of query letter issued by SRO Pune II, decision of grant of consent may be taken at higher level.

Industry has submitted their say of existing ETP / STP as per earlier consent condition and SRO's query letter reply at HQ on 02/03/2013. Though the industry has submitted their say, an existing ETP/STP, they have not carried out feasibility study as per the consent condition. Their claim of exempting with the standards may be due to dilution as there is increase in water consumption. We may consider the case by imposing condition for carrying out feasibility studies of existing ETP/STP within three months and based on the findings to revamp the existing ETP within one year. Also BG of Rs 5 lakhs is to be imposed towards timely compliances.
