		Approved		
REVIEW ITEM				
1	Policy decision on grant of consent to industries intend to manufacture Pyrolysis Oil & Carbon Black by using waste tyres/plastic wastes			The issue was discussed in the expert appraisal committee (industry) of MoEF GOI in the meeting held during 24-25 Sept 2012. As per the minutes of the meeting processing of recycle/ used tyre/ other rubbers for producing furnace oil & carbon black doesn't attract the provisions of EIA notification 2006. The unit are required to obtain requisite C to E / O under Water Act, Air Act & HW rules 2008 as may be applicable in such cases. It is therefore decided to issue C to E/ O by keeping in view above decision of MoEF's expert committee.

General Points:

1. During the agenda of M/s. WNS Global system it was noted that the CI for the Consent to Establish of whole project was quite less than that of Consent to Operate for part. Hence, for construction projects where there is difference in Capital Investment of Consent to Establish & Consent to Operate, how the consent fees to be calculated / recovered in such cases shall be examined by S.L.O.
2. It was decided to review status of BG in the first CC of March(1st march) for the cases granted by CC between 1st Jan 2012 till 31st Dec 2012.

The meeting ended with vote of thanks to the Chair.
