		167, PIMPRI. Factory 192-204, colony at 160-167, PIMPRI. Haveli	Renewal of consent to operate		<p>Committee also noted that this Case was discussed in the CAC meeting dtd. 3.09.2024 and it was decided to call Project Proponent for Technical presentation/ Personal Hearing. Accordingly, Personal Hearing was extended on 7.10.2024 and it was decided to call information regarding the latest capital investment certificate with Gross capital, operational feasibility of combine ETP & STP for low volume effluent, possibilities of other Banks for Bank Guarantee and requisite consent fees.</p> <p>Committee further noted that PP has submitted reply as per Minutes of the Personal hearing and submitted C.A. certificate of Rs. 214.8708 Crs, which has been enhanced by Rs. 51.277 Crs, PP has submitted that effluent is similar to domestic effluent as it generated from the basically from washing of vials with purified water, autoclave drains, water distillation still drains (used for generation of Pyrogen free water), boiler blow down and colling, etc. This effluent does not contain any chemical contamination. Hence there is no issue in treating the low volume quantity of effluents from factory and colony in our ETP. In the context of the BG, PP has submitted that HAL has NPA accounts and they have only one bank in operation i.e. Bank of Baroda allowing limited daily operational access to its accounts. However, Bank of Baroda has not provided HAL with Bank Guarantee facility, as per RBI guidelines, resulting in HAL's inability to submit a Bank Guarantee for Rs. 5.00 lakhs for the operation & maintenance of the Pollution Control System. They have approached other Banks for the facilities like Current Accounts, Saving Accounts, Bank Guarantee facilities etc. but other banks are not ready to give such kind of facilities. PP has paid fees for enhancement in capital investment and requested to waive off the BG.</p> <p>After due deliberation, it was decided to grant Renewal of Consent to Operate for Manufacturing of pharmaceutical and agrochemical products by imposing BG and standard conditions.</p> <p>1.
