It was submitted by Convenor of Public hearing that appeal was made in news paper to public, affected peoples of project to study project specifications in environmental angle & come forward with suggestions, objections & comments about the proposed project. The written say about project shall be submitted to Sub Regional Office, MPC Board till the date of public hearing & the same can be submitted in public hearing Or can be presented during the course of Hearing. The convener of Public hearing expressed that Sub-Regional Office, M.P.C. Board Chh. Sambhajinagar has received one representation from Lakhani Jambarkheda Grampanchayat about project till the date. Further he made appeal to public present for public hearing to come forward with their views, suggestions, objections about proposed project which will be video recorded as per procedure laid down. Further, proceeding of public hearing including your views, suggestions, objections along with video recording will be Submitted to Environment Department, Govt for Maharashtra for further decision which is their own discretion. He clarified that this public hearing is a platform to express your views, suggestions, objections only. The decision about grant of Environment clearance for the said project will be taken by Environment Department, Govt for Maharashtra.

Thereafter, Chairman of Public Hearing panel instructed project proponent to give a presentation on the proposed project. Accordingly Environmental Consultant , on behalf of Project Proponent gave Power Point Presentation indicating brief about project including locations, mode of sand dredging, traffic management, Road & infrastructure management, environmental measures like tree plantation, Noise & Air pollution control arrangement. It was presented that said sand dredging shall be carried out through tendering process & successful bidders will carry out mining as per rules framed by Govt of Maharashtra. The sand dredging shall be carried out under vigilance of District Environmental Committee headed by District Collector & members like Sub District Magistrate, Tehsildar, Representative from Irrigation Dept, Police & RTO Department. Any violations with respect to framed rules will be viewed accordingly by Committee under Chairmanship of District Magistrate. The public Hearing is being conducted as

per Circular issued by Ministry of Environment & Climate Change, Govt of Maharashtra vide letter dated 03/12/2019 & 04/05/2020.

Thereafter, Hon'ble Chairman of Public Hearing Committee informed that power point presentation is done by Project Proponent. Therefore He made appeal to public present for public hearing to come forward with their views, suggestions, objections about proposed project which will be video recorded as per procedure laid down. Further, proceeding of public hearing including your views, suggestions, objections along with video recording will be Submitted to Environment Department, Govt for Maharashtra

1. **Sarpanch of Sarala Gaon Shri Jagannath** told that the work of gharkul for weaker sections is being constructed in our area and there are various obstacles in obtaining sand for the construction of gharkul. We can provide place for sand storage depot and requested to make us available Sand for the construction of gharkuls for weaker section.

Environment consultant submitted that there is 10% sand reserved for construction of homes for weaker section and Gharkuls. We have to file online application for requisition of sand.

2. **Shri Digambar Sasundre** a villager told that there is illegal mining of science in Poorna river bed. Sand mining proposed in river bed Purna at survey number 2,3,4,5 which are adjacent to drinking water river so there maybe depletion of water table which need to be shifted to other location. There is more sand available near river bridge and where there is illegal mining which needs to be controlled by government.

District mining officer told that the locations of sand dredging are decided by technical committee consisting of representatives of GSDA, irrigation department Agriculture Department. The decision about sand Dredging points is taken by the technical committee as per their own discretion. Team of Tehsildar and local police will visit illegal mining activity and and stop illegal mining near bridge.

3. **Gram Panchayat officer Shri Ashok kale** told that we are constructing 202 gharkul with timeline of 100 days. Already 60 days help in passed and only 40 days are remaining to complete the target within stipulated time period. Therefore you are requested to make us available Sand for the construction.

District mining officer told that there is 10% sand reserved for construction of homes for weaker section and Gharkuls. We have to file online application for requisition of sand.

4. **Shri Digambar Sasundre a villager** told that Sand mining proposed in river bed Purna at survey number 2,3,4,5 which are adjacent to drinking water river so there maybe depletion of water table which need to be shifted to other location.

District mining officer told that no mining of sand will be carried out within 200 Mts from drinking water well and mining will not create adverse effect on ground water table.

Thereafter Hon'ble chairman informed that public hearing is conducted as per procedure laid down in EIA notification and minutes of public heading will be submitted to environment department Government of Maharashtra for further necessary decision. Main time some of the participants request for minutes and videography of public heading. It was told by convener of the public hearing that minutes of public hearing and videography will be made available to applicants under Right Of Information Act 2005. It was brought to the notice of president and member of public hearing panel that there is no any representations received to MPCB till the time of public hearing

Thereafter Chairman of public panel concluded that public hearing was conducted as per guideline issued by government of India and your question , suggestion and objections during public hearing will be taken on record. Accordingly convener public hearing panel concluded the meeting with vote of thanks to the Hon'ble chair
