**Note:**

**Urban area:** As per the Census of India 2011, the urban area is defined as follows:

i. All places with a municipality, corporation, cantonment board or notified town area committee, etc.

ii. All other places which satisfied the following criteria:
   a. A minimum population of 5,000;
   b. At least 75 per cent of the male main working population engaged in non-agricultural pursuits; and
   c. A density of population of at least 400 persons per sq. km.

**Peri-urban area:** It is an area or habitation located on the perimeter of the urban area having partial or complete influence of urbanization. It undergoes dramatic changes over a given period of time.
